Now do you see?! By JR Varner I thought you said you loved me I thought you said you cared Even for what I can't do or be

But there you go once again Walking away and seemingly not caring Should I give up or try to begin again

It gets harder every time, you know Do you realize that it hurts when I fall? I just hide it so it doesn't show

And that way you won't ever see Maybe I can do it by myself this time I don't want you to be able to see through me

Did you forget that you promised? And doesn't that mean anything to you?! I guess I'll just wander around in circles, getting lost

It's not like you show you care- There was a time that you did But it's been awhile, and it's left me bare

Hollowed out on the inside I'm slowly losing hope of you Ever returning to provide

Any type of consolation Any type of friendliness or love Are you just going to leave me in deprivation?

I suppose I should've guessed that Quite a long time ago Every one always thinks I'm a brat

I guess I thought you were different You never said that to me In

fact, it was always love you sent

Or at least that's what I presumed That's what it was- But I might've been wrong You weren't like him, he always loomed

Right overhead, watching for mistakes Trying to blame me for anything he could And when you didn't... You gave me a break

I just thought that's what love was But then again, I've never felt it before Don't just get infinite wisdom sent from above

I just wished you would've said something Before I was completely deceived In what you were bound to bring

Friends? People that care? Love? Just more lies. Deception; Betrayal; Untruth; Pain I bet all the others were just spies

Right? So you could get close Then push me away, hurting me all over Your goal being what- to make me morose?

Well it's working! Cause I always thought you cared I believed in you! Didn't realize you were lurking

Right outside the doors of my heart Waiting for just the right moment to leave Let me guess- A good place to start?!

Well it's happened before Although this time it hurt the most The pain reaching my very core

But it won't ever happen again- not to me Because I'll never believe another promise Not from you- or anyone else claiming to be

Someone who "really cares about how I feel" Promises to be there when I need them No, I'll just hide away and conceal

Anything I'm going through Struggles of pain and all Because I trusted you once- And now look where it's gotten me! Do you see what words can do And what yours have put me through!
